

Ryders Hayes Pupil Premium 2019 / 2020

Ryders Hayes School has high aspirations for all its pupils, not least those who are disadvantaged - not only for their academic development, but also for their personal growth and emerging life-skills, which are held up by staff and pupils alike as being of equal importance.

We understand that by providing our most disadvantaged pupils with strong Oracy skills; strong foundations in basic skills; rich experiences across our broad curriculum in Arts, Sciences and Life-skills; high quality extra-curricular clubs and experiences; good role models to develop good character; a wealth of opportunities both within and beyond our school, and most importantly a Growth Mindset and aspirations for their future learning and their place in the world of work, that we can close the gap between these children and their peers, no matter what their start in life, and improve their social mobility and life chances.

We have planned to use our Pupil Premium Grant to support the aspirations we have for this group of children and to meet their individual need, but the firm foundation of their success is quality first teaching every lesson, every day.
