<b>Skills I Have</b>	<p>Which skills do you feel confident in already and how have you developed these?</p> <p>I already feel confident in listening because I have to listen every day in school and at home to learn new things. I also feel confident in the skill of aiming high because I always try to work my hardest. I play football outside of school and this helps to develop the skill of teamwork.</p>	<p>Are there any skills that you did not realise you had until you discussed this sector with employees/watched the video to explain what employees do?</p> <p>I did not realise that staying positive was so important for people in the Health and Social Sector and I think I am quite good at staying positive and trying to help others.</p>
<b>Skills I Need</b>	<p>What skills do you need to develop for the future and why?</p> <p>I need to work harder at the skill of problem solving because sometimes I can find some questions tricky. I also want to build my confidence in presenting as I can feel nervous when I have to present something in class.</p>	<p>Are there other skills that you need to develop after discussing this sector?</p> <p>I did struggle to listen to everybody when they were completing their presentations, so I need to work on developing the skill of listening.</p>
<b>Action Plan to develop the skills I need for 2030</b>	<p>How can you develop these skills and who can help you?</p> <p>I think that my teacher can help me to develop the skill of problem solving by giving me some problems in maths lessons. My parents can also help me as they like to solve problems. I could join a club in school and help to present what the club is about in an assembly.</p>	<p>Are there any questions you would like to ask anybody about the world of work? Has this changed what you would like to do in the future?</p> <p>Are they proud to have the job that they do?</p> <p>I think that I would still like to be a Police Officer but I do like to idea of being a Care Worker to help people.</p>
