

Hattie Grove – Community Trustee

Pen Portrait

I am a former solicitor and have been more recently a school business manager with fifteen years' experience of school finance, administration, HR and Health & Safety in primary phases of both maintained schools and academy settings. Having recently moved back into the world of professional services, I am delighted to join the Board of Trustees at Ryders Hayes School and look forward to using my professional experience to support the Trust Board and the Senior Leadership Team as they work to ensure the outcomes for the children of Ryders Hayes are the very best they can be.

My experience of Ryders Hayes School is that of an exciting, progressive and forward-thinking environment where the experienced staff ensure the children receive the very best teaching, informed by their highly evidence-led practice. In addition, the children of Ryders Hayes have access to a wide and varied range of curricular and extra-curricular opportunities, ensuring their holistic school experience is well rounded and based on more than just the highly well-informed and broad-based curriculum offered by the school.
